

## Accepted Manuscript

Title: Effect of age at exposure on chromosome abnormalities in MIC-exposed Bhopal population detected 30 years post-disaster

Authors: Bani Bandana Ganguly, Shouvik Mandal, Nalok Banerjee, Nitin N. Kadam, Rita Abbi

PII: S0027-5107(17)30179-3  
DOI: <https://doi.org/10.1016/j.mrfmmm.2018.03.005>  
Reference: MUT 11643

To appear in: *Mutation Research*

Received date: 30-10-2017  
Revised date: 23-3-2018  
Accepted date: 28-3-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of age at exposure on chromosome abnormalities in MIC-exposed Bhopal population detected 30 years post-disaster

**Running title:** Chromosome aberrations correlated to age of MIC-exposure

**Highlights**

- Effect of exposure age has been correlated to genetic alterations in MIC-exposed Bhopal population.
- First follow-up of genetic condition in MIC-exposed population.
- Acquisition of stable and clonal aberrations including complex and monosomal karyotypes has been described.
- Effect of life-style on the extent of chromosomal abnormalities has been discussed.
