## Accepted Manuscript

Title: Immunolocalization of FGF8/10 in the Apical Epidermal Peg and Blastema of the regenerating tail in lizard marks this apical growing area

Author: Lorenzo Alibardi

PII: S0940-9602(16)30042-5

DOI: http://dx.doi.org/doi:10.1016/j.aanat.2016.03.010

Reference: AANAT 51033

To appear in:

Received date: 10-1-2016 Revised date: 28-3-2016 Accepted date: 30-3-2016

Please cite this article as: Alibardi, L.,Immunolocalization of FGF8/10 in the Apical Epidermal Peg and Blastema of the regenerating tail in lizard marks this apical growing area, *Annals of Anatomy* (2016), http://dx.doi.org/10.1016/j.aanat.2016.03.010

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## ACCEPTED MANUSCRIPT

- 1 Immunolocalization of FGF8/10 in the Apical Epidermal
- 2 Peg and Blastema of the regenerating tail in lizard marks
- 3 this apical growing area
