Title: Ca²⁺-dependent regulation and binding of calmodulin to multiple sites of Transient Receptor Potential Melastatin 3 (TRPM3) ion channels

Authors: Julia Przibilla, Sandeep Dembla, Oleksandr Rizun, Annette Lis, Martin Jung, Johannes Oberwinkler, Andreas Beck, Stephan E. Philipp

PII: S0143-4160(18)30005-8
DOI: <https://doi.org/10.1016/j.ceca.2018.03.005>
Reference: YCECA 1930

To appear in: *Cell Calcium*

Received date: 9-1-2018
Revised date: 19-3-2018
Accepted date: 30-3-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Ca^{2+} -dependent regulation and binding of calmodulin to multiple sites of Transient Receptor Potential Melastatin 3 (TRPM3) ion channels

*Running title: *Interaction of Ca^{2+} /calmodulin with TRPM3 ion channels*
