Title: The sarco(endo)plasmic reticulum calcium ATPase SCA-1 regulates the *Caenorhabditis elegans* nicotinic acetylcholine receptor ACR-16

Authors: Ashley A. Martin, Janet E. Richmond

PII: S0143-4160(18)30016-2
DOI: <https://doi.org/10.1016/j.ceca.2018.02.005>
Reference: YCECA 1924

To appear in: *Cell Calcium*

Received date: 24-1-2018
Revised date: 22-2-2018
Accepted date: 22-2-2018

Please cite this article as: Ashley A.Martin, Janet E.Richmond, The sarco(endo)plasmic reticulum calcium ATPase SCA-1 regulates the *Caenorhabditis elegans* nicotinic acetylcholine receptor ACR-16, *Cell Calcium* <https://doi.org/10.1016/j.ceca.2018.02.005>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The sarco(endo)plasmic reticulum calcium ATPase SCA-1 regulates the *Caenorhabditis elegans* nicotinic acetylcholine receptor ACR-16

Ashley A. Martin^{a*} and Janet E. Richmond^a
