

Author's Accepted Manuscript

Transient transcriptional silencing alters the cell cycle to promote germline stem cell differentiation in *Drosophila*

Pooja Flora, Sean Schowalter, SiuWah Wong-Deyrup, Matthew DeGennaro, Mohamad Ali Nasrallah, Prashanth Rangan

PII: S0012-1606(17)30444-X
DOI: <https://doi.org/10.1016/j.ydbio.2017.11.014>
Reference: YDBIO7634

To appear in: *Developmental Biology*

Received date: 30 June 2017
Revised date: 18 November 2017
Accepted date: 27 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Transient transcriptional silencing alters the cell cycle to promote germline stem cell differentiation in *Drosophila*

Running Title: *pgc* promotes differentiation
