

## Accepted Manuscript

Crossover fungal pathogens: the biology and pathogenesis of fungi capable of crossing kingdoms to infect plants and humans

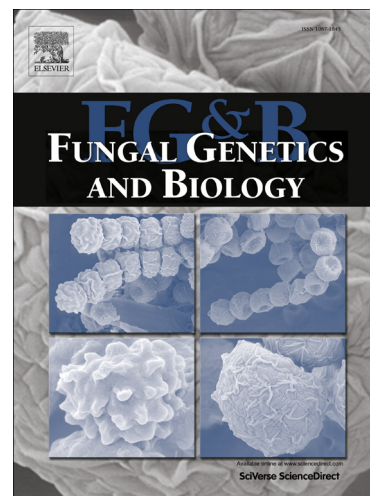

Gregory M. Gauthier, Nancy P. Keller

PII: S1087-1845(13)00156-4

DOI: <http://dx.doi.org/10.1016/j.fgb.2013.08.016>

Reference: YFGBI 2598

To appear in: *Fungal Genetics and Biology*

Please cite this article as: Gauthier, G.M., Keller, N.P., Crossover fungal pathogens: the biology and pathogenesis of fungi capable of crossing kingdoms to infect plants and humans, *Fungal Genetics and Biology* (2013), doi: <http://dx.doi.org/10.1016/j.fgb.2013.08.016>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Crossover fungal pathogens: the biology and pathogenesis of fungi capable of crossing kingdoms to infect plants and humans**
