Accepted Manuscript

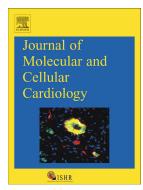

Neural/Bayes network predictor for inheritable cardiac disease pathogenicity and phenotype

Thomas P. Burghardt, Katalin Ajtai

PII:	S0022-2828(18)30101-9
DOI:	doi:10.1016/j.yjmcc.2018.04.006
Reference:	YJMCC 8717
To appear in:	Journal of Molecular and Cellular Cardiology
Received date:	27 December 2017
Revised date:	3 April 2018
Accepted date:	9 April 2018

The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Yjmcc(2018), doi:10.1016/j.yjmcc.2018.04.006

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Neural/Bayes Network Predictor for Inheritable Cardiac Disease Pathogenicity and Phenotype

Thomas P. Burghardt^{1,2} and Katalin Ajtai¹
