

## Accepted Manuscript

Impaired Ca<sup>2+</sup> cycling of nonischemic myocytes contributes to sarcomere dysfunction early after myocardial infarction

Annette Kronenbitter, Florian Funk, Katarzyna Hackert, Simone Gorreßen, Dennis Glaser, Peter Boknik, Gereon Poschmann, Kai Stühler, Malgorzata Isić, Martina Krüger, Joachim P. Schmitt

PII: S0022-2828(18)30099-3  
DOI: doi:[10.1016/j.yjmcc.2018.04.004](https://doi.org/10.1016/j.yjmcc.2018.04.004)  
Reference: YJMCC 8715

To appear in: *Journal of Molecular and Cellular Cardiology*

Received date: 19 February 2018  
Revised date: 5 April 2018  
Accepted date: 8 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
