Programmed necrosis in heart disease: Molecular mechanisms and clinical implications

Journal of
Molecular and
Cellular
Cardiology

Hong Zhu, Aijun Sun

PII: S0022-2828(18)30034-8

DOI: doi:10.1016/j.yjmcc.2018.01.018

Reference: YJMCC 8677

To appear in: Journal of Molecular and Cellular Cardiology

Received date: 17 August 2017 Revised date: 24 October 2017 Accepted date: 31 January 2018

Please cite this article as: Hong Zhu, Aijun Sun, Programmed necrosis in heart disease: Molecular mechanisms and clinical implications. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Yjmcc(2018), doi:10.1016/j.yjmcc.2018.01.018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
