This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Review article

IMPLEMENTING GENOME-DRIVEN PERSONALIZED CARDIOLOGY IN CLINICAL
PRACTICE

Ares Pasipoularides, MD, PhD, FACC

Consulting Professor of Surgery

Formerly, Director of Cardiac Function

Duke/NSF Center for Emerging Cardiovascular Technologies

Emeritus Faculty of Surgery and of Biomedical Engineering

Duke University School of Medicine and Graduate School

Durham, North Carolina 27710, USA
