

## Accepted Manuscript

Ca<sup>2+</sup>-dependent potassium channels and cannabinoid signaling in the endothelium of apolipoprotein E knockout mice before plaque formation

Alexander I. Bondarenko, Olga Panasiuk, Iryna Okhai, Fabrizio Montecucco, Karim J. Brandt, François Mach

PII: S0022-2828(18)30002-6

DOI: [doi:10.1016/j.yjmcc.2018.01.002](https://doi.org/10.1016/j.yjmcc.2018.01.002)

Reference: YJMCC 8661

To appear in: *Journal of Molecular and Cellular Cardiology*

Received date: 4 September 2017

Revised date: 30 December 2017

Accepted date: 2 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# **Ca<sup>2+</sup>-dependent potassium channels and cannabinoid signaling in the endothelium of apolipoprotein E knockout mice before plaque formation**

Alexander I. Bondarenko<sup>1</sup>, Olga Panasiuk<sup>1</sup>, Iryna Okhai<sup>1</sup>, Fabrizio Montecucco<sup>2,3,4</sup>,
