Grainyhead-like 3 regulation of *endothelin-1* in the pharyngeal endoderm is critical for growth and development of the craniofacial skeleton

Sebastian Dworkin, Johanna Simkin, Charbel Darido, Darren D. Partridge, Smitha R. Georgy, Jacinta Caddy, Tomasz Wilanowski, Graham J. Lieschke, Karen Doggett, Joan K. Heath, Stephen M. Jane

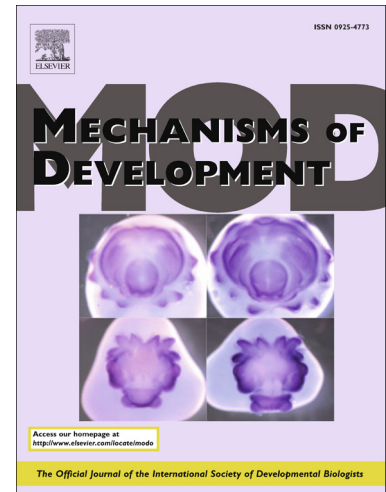

PII: S0925-4773(14)00029-X
DOI: <http://dx.doi.org/10.1016/j.mod.2014.05.005>
Reference: MOD 3299

To appear in: *Mechanisms of Development*

Received Date: 29 April 2014
Accepted Date: 25 May 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
