Icariin modulates mitochondrial function and apoptosis in high glucose-induced glomerular podocytes through G protein-coupled estrogen receptors

Chen Qiao, Wenjuan Ye, Sai Li, Hui Wang, Xuansheng Ding

PII: S0303-7207(18)30031-5

DOI: [10.1016/j.mce.2018.01.014](https://doi.org/10.1016/j.mce.2018.01.014)

Reference: MCE 10166

To appear in: *Molecular and Cellular Endocrinology*

Received Date: 20 July 2017

Revised Date: 20 January 2018

Accepted Date: 22 January 2018

Please cite this article as: Qiao, C., Ye, W., Li, S., Wang, H., Ding, X., Icariin modulates mitochondrial function and apoptosis in high glucose-induced glomerular podocytes through G protein-coupled estrogen receptors, *Molecular and Cellular Endocrinology* (2018), doi: 10.1016/j.mce.2018.01.014.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

*Original articles***Icariin modulates mitochondrial function and apoptosis in high glucose-induced glomerular podocytes through G protein-coupled estrogen receptors**
