This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Lamprey View on the Origins of Neuroendocrine Regulation of the Thyroid Axis

Stacia A. Sower and Krist N. Hausken

Department of Molecular, Cellular and Biomedical Sciences and Center for Molecular and
Comparative Endocrinology, University of New Hampshire, Durham, NH, USA

Correspondence: Emeritus Prof. Stacia A. Sower
Department of Molecular, Cellular and Biomedical Sciences
46 College Road
316 Rudman Hall
University of New Hampshire
Durham, NH
03824

keywords: lamprey; glycoprotein hormone; thyroid; pituitary; thyroxine; thyrotropin.
