Muscle-bone interactions: from experimental models to the clinic? A critical update

Michaël R. Laurent, Vanessa Dubois, Frank Claessens, Sabine M.P. Verschueren, Dirk Vanderschueren, Evelien Gielen, Ferran Jardí

PII: S0303-7207(15)30118-0

DOI: [10.1016/j.mce.2015.10.017](https://doi.org/10.1016/j.mce.2015.10.017)

Reference: MCE 9319

To appear in: *Molecular and Cellular Endocrinology*

Received Date: 31 August 2015

Revised Date: 13 October 2015

Accepted Date: 20 October 2015

Please cite this article as: Laurent, M.R., Dubois, V., Claessens, F., Verschueren, S.M.P., Vanderschueren, D., Gielen, E., Jardí, F., Muscle-bone interactions: from experimental models to the clinic? A critical update, *Molecular and Cellular Endocrinology* (2015), doi: 10.1016/j.mce.2015.10.017.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Muscle-bone interactions: from experimental models to the clinic? A critical update
