This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Urate mitigates oxidative stress and motor neuron toxicity of astrocytes derived from ALS-linked *SOD1^{G93A}* mutant mice

Rachit Bakshi¹, Yuehang Xu¹, Kaly A. Mueller², Xiqun Chen¹, Eric Granucci², Sabrina Paganoni^{3,4}, Ghazaleh Sadri-Vakili², Michael A. Schwarzschild¹
