Accepted Manuscript

Neuronal polarization: From spatiotemporal signaling to

cytoskeletal dynamics

Max Schelski, Frank Bradke

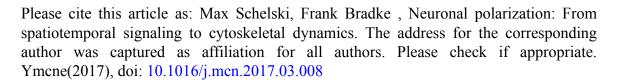

PII: S1044-7431(16)30256-1

DOI: doi: 10.1016/j.mcn.2017.03.008

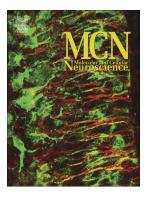

Reference: YMCNE 3175

To appear in: Molecular and Cellular Neuroscience

Received date: 1 December 2016 Revised date: 24 March 2017 Accepted date: 26 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Neuronal Polarization: From Spatiotemporal Signaling to Cytoskeletal Dynamics Max Schelski and Frank Bradke

German Center for Neurodegenerative Diseases, Sigmund-Freud-Strasse 27, 53127 Bonn, Germany
