This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title:**

FoxP2 directly regulates the reelin receptor *VLDLR* developmentally and by singing

**Abbreviated Title:**

*VLDLR* is a direct target of FoxP2

**Authors:**

Iris Adam<sup>1</sup>, Ezequiel Mendoza, Ursula Kobalz, Sandra Wohlgemuth, Constance Scharff<sup>1</sup>

**Affiliation:**

Department Animal Behavior, Freie Universität Berlin, Berlin, Germany
