This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Dr. Michael Robinson  
Editor-in-Chief  
Neurochemistry International

26<sup>th</sup> February 2018

Dear Dr. Robinson,

Please find enclosed a rebuttal to the points raised by the reviewers of our manuscript **“Neuromuscular synapse degeneration without muscle function loss in middle aged BACHD murine model for HD”**.

We thank all the referees for their critique as they most certainly contributed to improve the quality and understanding of our manuscript. The answers to the reviewers' comments are presented in the next pages and the relevant textual changes made are indicated in the revised manuscript by yellow highlighting.

Finally, we are thankful to the Editor at Neurochemistry International for the attention given to our manuscript during the peer-review process and hope that the revised version is now compatible with the high quality standard necessary to have it accepted for publication in the journal.

Yours sincerely,

Cristina Guatimosim, PhD  
Associate Professor  
Departamento de Morfologia, ICB  
Universidade Federal de Minas Gerais  
Av. Antônio Carlos 6627
