The small heat shock proteins, especially HspB4 and HspB5 are promising protectants in neurodegenerative diseases

Zhihui Zhu, Georg Reiser

PII: S0197-0186(17)30550-8

DOI: [10.1016/j.neuint.2018.02.006](https://doi.org/10.1016/j.neuint.2018.02.006)

Reference: NCI 4208

To appear in: *Neurochemistry International*

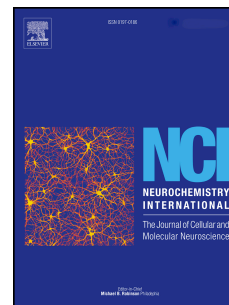

Received Date: 24 October 2017

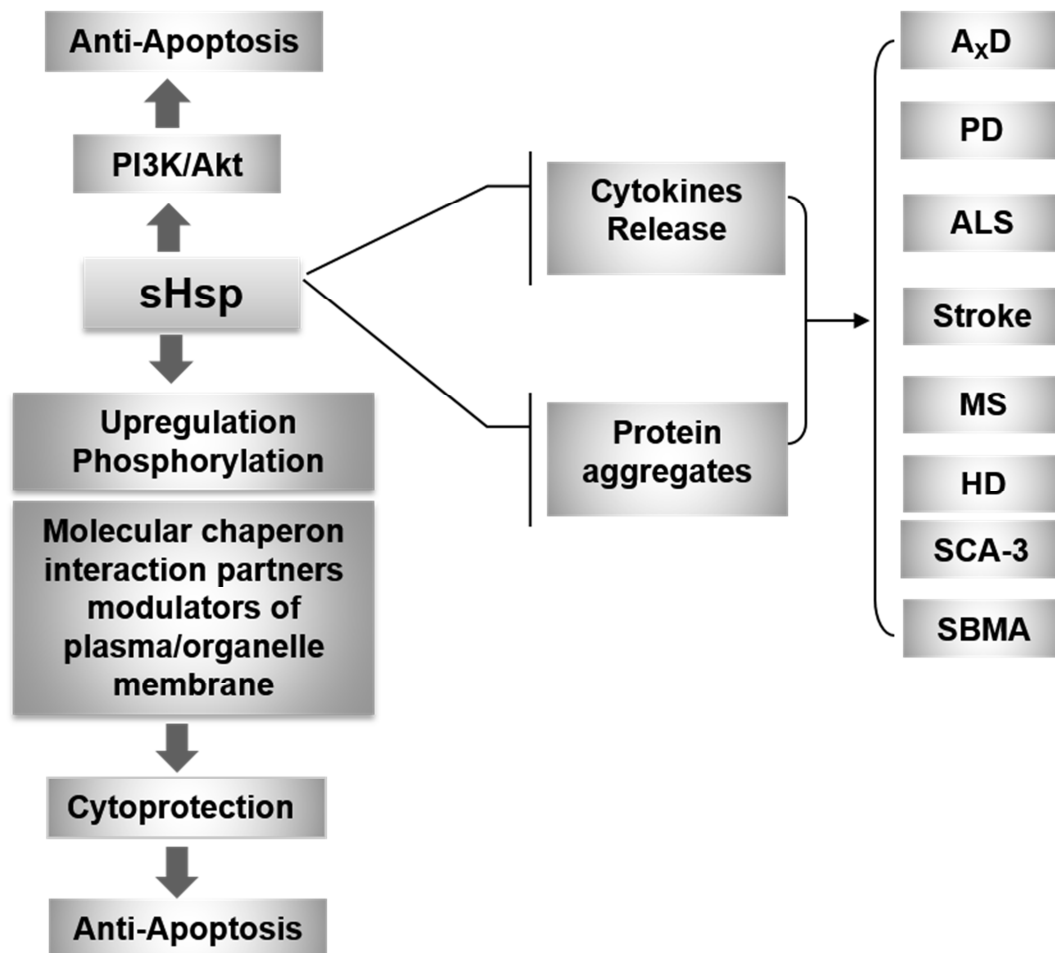

Revised Date: 24 January 2018

Accepted Date: 5 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Neuroprotection by sHsps (small heat shock proteins)
