Leptin concentrations in finishing beef steers and heifers and their association with dry matter intake, average daily gain, feed efficiency, and body composition

A.P. Foote, R.G. Tait, Jr., D.H. Keisler, K.E. Hales, H.C. Freetly

PII: S0739-7240(16)00003-5

DOI: [10.1016/j.domaniend.2015.12.007](https://doi.org/10.1016/j.domaniend.2015.12.007)

Reference: DAE 6178

To appear in: *Domestic Animal Endocrinology*

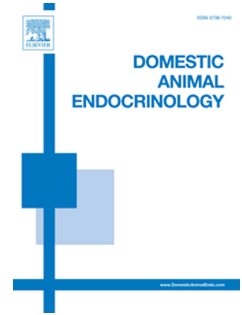

Received Date: 19 November 2015

Revised Date: 30 December 2015

Accepted Date: 31 December 2015

Please cite this article as: Foote AP, Tait Jr. RG, Keisler DH, Hales KE, Freetly HC, Leptin concentrations in finishing beef steers and heifers and their association with dry matter intake, average daily gain, feed efficiency, and body composition, *Domestic Animal Endocrinology* (2016), doi: 10.1016/j.domaniend.2015.12.007.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
