A novel white spot syndrome virus protein WSSV164 controls prophenoloxidasases, *Pmp*POs in shrimp melanization cascade

Pakkakul Sangsuriya, Walaiporn Charoensapsri, Jantiwan Sutthangkul,
Saengchan Senapin, Ikuo Hirono, Anchalee Tassanakajon, Piti Amparyup

PII: S0145-305X(18)30148-4

DOI: 10.1016/j.dci.2018.05.005

Reference: DCI 3167

To appear in: *Developmental and Comparative Immunology*

Received Date: 29 March 2018

Revised Date: 30 April 2018

Accepted Date: 03 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
