

Accepted Manuscript

Mucus glycosylation and immunity, and bacterial microbiota associated to the skin of experimentally ulcerated gilthead seabream (*Sparus aurata*)

Silvana Teresa Tapia-Paniagua, Diana Ceballos-Francisco, M^a Carmen Balebona, María Ángeles Esteban, Miguel Ángel Moriñigo

PII: S1050-4648(18)30058-5

DOI: [10.1016/j.fsi.2018.02.006](https://doi.org/10.1016/j.fsi.2018.02.006)

Reference: YFSIM 5113

To appear in: *Fish and Shellfish Immunology*

Received Date: 29 October 2017

Revised Date: 24 January 2018

Accepted Date: 2 February 2018

Please cite this article as: Tapia-Paniagua ST, Ceballos-Francisco D, Balebona MC, Esteban MariÁ, Moriñigo MiguelÁ, Mucus glycosylation and immunity, and bacterial microbiota associated to the skin of experimentally ulcerated gilthead seabream (*Sparus aurata*), *Fish and Shellfish Immunology* (2018), doi: 10.1016/j.fsi.2018.02.006.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
