

## Accepted Manuscript

Phylogenies based on combined mitochondrial and nuclear sequences conflict with morphologically defined genera in the eimeriid coccidia (Apicomplexa)

Mosun E. Ogedengbe, Shiem El-Sherry, Joseph D. Ogedengbe, H. David Chapman, John R. Barta

PII: S0020-7519(17)30285-0  
DOI: <https://doi.org/10.1016/j.ijpara.2017.07.008>  
Reference: PARA 4001

To appear in: *International Journal for Parasitology*

Received Date: 24 February 2017  
Revised Date: 24 July 2017  
Accepted Date: 25 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
