This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Supplementation of *Aegle marmelos* and *Murraya koenigii* leaves reduced bacterial load in uterine lavage of endometritic cows
- Supplementation of *Aegle marmelos* and *Murraya koenigii* leaves reduced PMN cells count in uterine lavage of endometritic cows
- Supplementation of *Aegle marmelos* and *Murraya koenigii* leaves improved antioxidant status and reduced oxidative stress in endometritic cows
