

Author's Accepted Manuscript

Detection of pig genome regions determining production traits using an information theory approach

Alicja Borowska, Henry Reyer, Klaus Wimmers, Patrick F. Varley, Tomasz Szwaczkowski

PII: S1871-1413(17)30265-2
DOI: <http://dx.doi.org/10.1016/j.livsci.2017.09.012>
Reference: LIVSCI3297

To appear in: *Livestock Science*

Received date: 11 February 2017
Revised date: 8 September 2017
Accepted date: 13 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Detection of pig genome regions determining production traits using an information theory approach
