First population pharmacokinetic analysis showing increased quinolone metabolite formation and clearance in cystic fibrosis patients compared to healthy volunteers

Yuanyuan Jiao, Tae Hwan Kim, Xun Tao, Martina Kinzig, Cornelia B. Landersdorfer, Stefanie K. Drescher, Dhruvitkumar S. Sutaria, Bartolome Moya, Ulrike Holzgrabe, Fritz Sörgel, Jürgen B. Bulitta

PII: S0928-0987(18)30358-0

DOI: doi:[10.1016/j.ejps.2018.07.054](https://doi.org/10.1016/j.ejps.2018.07.054)

Reference: PHASCI 4630

To appear in: *European Journal of Pharmaceutical Sciences*

Received date: 12 May 2018

Revised date: 9 July 2018

Accepted date: 27 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

First population pharmacokinetic analysis showing increased quinolone metabolite formation and clearance in cystic fibrosis patients compared to healthy volunteers
