Quality by design approach to screen the formulation and process variables influencing the characteristics of carvedilol solid lipid nanoparticles

Khaled M. Hosny, Khalid M. El-Say, Hala M. Alkhalidi

PII: S1773-2247(17)30923-1

DOI: [10.1016/j.jddst.2018.03.010](https://doi.org/10.1016/j.jddst.2018.03.010)

Reference: JDDST 603

To appear in: *Journal of Drug Delivery Science and Technology*

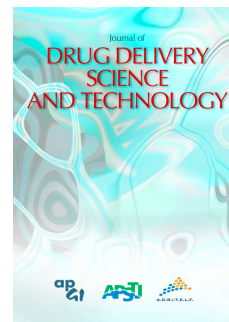

Received Date: 25 October 2017

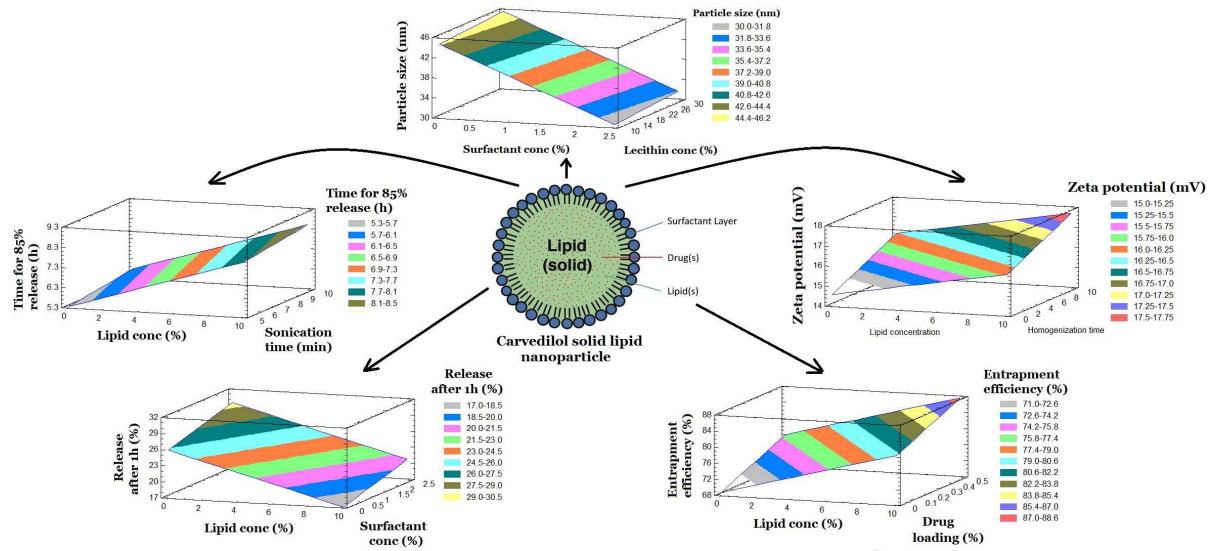

Revised Date: 3 March 2018

Accepted Date: 7 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
