The Use of a GroEL-BLI Biosensor to Rapidly Assess Pre-Aggregate Populations for Antibody Solutions Exhibiting Different Stability Profiles

Samantha E. Pace, Sangeeta B. Joshi, Reza Esfandiary, Robert Stadelman, Steven M. Bishop, C.R. Middaugh, Mark Fisher, David B. Volkin

PII: S0022-3549(17)30701-3

DOI: [10.1016/j.xphs.2017.10.010](https://doi.org/10.1016/j.xphs.2017.10.010)

Reference: XPHS 958

To appear in: *Journal of Pharmaceutical Sciences*

Received Date: 30 July 2017

Revised Date: 2 October 2017

Accepted Date: 5 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The Use of a GroEL-BLI Biosensor to Rapidly Assess Pre-Aggregate Populations for Antibody Solutions Exhibiting Different Stability Profiles
