An Investigation of Oral Exposure Variability and Formulation Strategy: A Case Study of PI3K- δ Inhibitor and Physiologically Based Pharmacokinetic Modeling in Beagle Dogs

Po-Chang Chiang, Jodie Pang, Jia Liu, Laurent Salphati

PII: S0022-3549(17)30451-3

DOI: [10.1016/j.xphs.2017.06.014](https://doi.org/10.1016/j.xphs.2017.06.014)

Reference: XPHS 857

To appear in: *Journal of Pharmaceutical Sciences*

Received Date: 29 March 2017

Revised Date: 25 May 2017

Accepted Date: 8 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

An Investigation of Oral Exposure Variability and Formulation Strategy: A Case Study of PI3K- δ Inhibitor and Physiologically Based Pharmacokinetic Modeling in Beagle Dogs

*Po-Chang Chiang, [‡] Jodie Pang, *Jia, Liu, [‡] Laurent Salphati

Running Title: Investigation of Oral Exposure Variability of PI3K- δ Inhibitor and Pharmacokinetic Modeling in Beagle Dogs

Departments of SMPS* and Drug Metabolism and Pharmacokinetics[‡]. Genentech, 1 DNA Way, South San Francisco, CA 94080, USA
