Neuroendocrine and immune disequilibrium as a probable link between metabolic syndrome and carcinogenesis

Mariyana G. Hristova

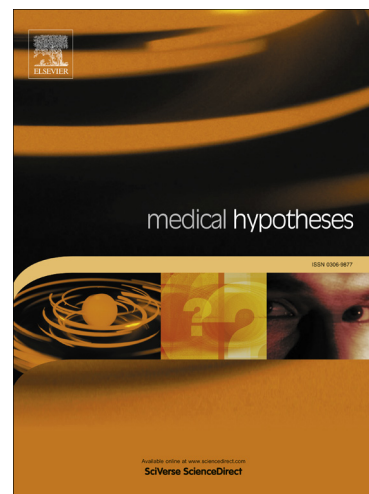

PII: S0306-9877(18)30387-6
DOI: <https://doi.org/10.1016/j.mehy.2018.05.018>
Reference: YMEHY 8884

To appear in: *Medical Hypotheses*

Received Date: 5 April 2018
Revised Date: 15 May 2018
Accepted Date: 25 May 2018

Please cite this article as: M.G. Hristova, Neuroendocrine and immune disequilibrium as a probable link between metabolic syndrome and carcinogenesis, *Medical Hypotheses* (2018), doi: <https://doi.org/10.1016/j.mehy.2018.05.018>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Neuroendocrine and immune disequilibrium as a probable link between metabolic syndrome
and carcinogenesis
