This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title of article: Asprosin: Possible target in connection with ghrelin and cytokine network expression in the post-burn treatment

Initials and name of each author, with highest academic degrees:

Mustafa Metin Donma¹, Prof. Dr.

Orkide Donma², Prof. Dr.

Name and address of the department of institution to which the work should be attributed:

¹Namik Kemal University, Medical Faculty, Department of Pediatrics, Tekirdag

²Istanbul University, Cerrahpasa Medical Faculty, Department of Medical Biochemistry, Istanbul

Name, address, telephone and fax numbers and E-mail address of the author responsible for correspondence and to whom requests for offprints should be sent:

Prof. Dr. M. Metin Donma,

00-90-5323717207

mdonma@nku.edu.tr, mdonma@gmail.com

Key words:

Asprosin, burn, ghrelin, interleukin-6, interleukin-10, tumor necrosis factor- α
