

Accepted Manuscript

Insights into channel dysfunction from modelling and molecular dynamics simulations

Maria Musgaard, Teresa Paramo, Laura Domicевичa, Ole Juul Andersen, Philip C. Biggin

PII: S0028-3908(17)30303-9

DOI: [10.1016/j.neuropharm.2017.06.030](https://doi.org/10.1016/j.neuropharm.2017.06.030)

Reference: NP 6766

To appear in: *Neuropharmacology*

Received Date: 6 February 2017

Revised Date: 6 June 2017

Accepted Date: 28 June 2017

Please cite this article as: Musgaard, M., Paramo, T., Domicевичa, L., Andersen, O.J., Biggin, P.C., Insights into channel dysfunction from modelling and molecular dynamics simulations, *Neuropharmacology* (2017), doi: 10.1016/j.neuropharm.2017.06.030.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

INSIGHTS INTO CHANNEL DYSFUNCTION FROM MODELLING AND MOLECULAR DYNAMICS SIMULATIONS

Maria Musgaard, Teresa Paramo, Laura Domicевичa, Ole Juul Andersen and Philip C. Biggin*

Department of Biochemistry, University of Oxford, South Parks Road, Oxford, OX1 3QU, United Kingdom.
