Melanin-Concentrating Hormone acts through hypothalamic *kappa* opioid system and p70S6K to stimulate acute food intake

Amparo Romero-Picó, Estrella Sanchez-Rebordelo, Monica Imbernon, David González-Touceda, Cintia Folgueira, Ana Senra, Johan Fernø, Clémence Blouet, Roberto Cabrera, Margriet van Gestel, Roger A. Adan, Miguel López, Rafael Maldonado, Ruben Nogueiras, Carlos Diéguez

PII: S0028-3908(17)30569-5

DOI: [10.1016/j.neuropharm.2017.11.040](https://doi.org/10.1016/j.neuropharm.2017.11.040)

Reference: NP 6967

To appear in: *Neuropharmacology*

Received Date: 20 July 2017

Revised Date: 28 October 2017

Accepted Date: 24 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
