16-hydroxycleroda-3, 13-dien-15, 16-olide inhibits the proliferation and induces mitochondrial-dependent apoptosis through Akt, mTOR, and MEK-ERK pathways in human renal carcinoma cells

Cheng Liu , Wei-Chang Lee , Bu-Miin Huang , Yi-Chen Chia , Yu-Chi Chen , Yung-Chia Chen

PII: S0944-7113(17)30138-1
DOI: [10.1016/j.phymed.2017.09.021](https://doi.org/10.1016/j.phymed.2017.09.021)
Reference: PHYMED 52266

To appear in: *Phytomedicine*

Received date: 14 March 2017
Revised date: 18 July 2017
Accepted date: 30 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**16-hydroxycyclohexa-3, 13-dien-15, 16-olide inhibits the proliferation and induces
mitochondrial-dependent apoptosis through Akt, mTOR, and MEK-ERK
pathways in human renal carcinoma cells**
