Title: Investigating the molecular dissolution process of binary solid dispersions by molecular dynamics simulations

Author: Chan TengIAn, Ouyang Defang

PII: S1818-0876(17)30791-2

DOI: <https://doi.org/doi:10.1016/j.ajps.2017.07.011>

Reference: AJPS 475

To appear in: *Asian Journal of Pharmaceutical Sciences*

Received date: 16-6-2016

Revised date: 17-7-2017

Accepted date: 26-7-2017

Please cite this article as: Chan TengIAn, Ouyang Defang, Investigating the molecular dissolution process of binary solid dispersions by molecular dynamics simulations, *Asian Journal of Pharmaceutical Sciences* (2017), <https://doi.org/doi:10.1016/j.ajps.2017.07.011>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Investigating the molecular dissolution process of binary solid
dispersions by molecular dynamics simulations
