

## Accepted Manuscript

Interdependence of particle properties and bulk powder behavior of indomethacin in quench-cooled molten two-phase solid dispersions

Kristian Semjonov, Maia Salm, Tiina Lipiäinen, Karin Kogermann, Andres Lust, Ivo Laidmäe, Osmo Antikainen, Clare J. Strachan, Henrik Ehlers, Jouko Yliruusi, Jyrki Heinämäki

PII: S0378-5173(18)30120-0  
DOI: <https://doi.org/10.1016/j.ijpharm.2018.02.039>  
Reference: IJP 17337

To appear in: *International Journal of Pharmaceutics*

Received Date: 18 December 2017  
Revised Date: 20 February 2018  
Accepted Date: 21 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Interdependence of particle properties and bulk powder behavior of indomethacin in quench-cooled molten two-phase solid dispersions
