Title: Effect of high pressure homogenization on the structure and the interfacial and emulsifying properties of β -lactoglobulin

Authors: Ali Ali, Isabelle Le Potier, Nicolas Huang, Véronique Rosilio, Monique Cheron, Vincent Faivre, Isabelle Turbica, Florence Agnely, Ghazlene Mekhloufi

PII: S0378-5173(17)31162-6
DOI: <https://doi.org/10.1016/j.ijpharm.2017.12.019>
Reference: IJP 17211

To appear in: *International Journal of Pharmaceutics*

Received date: 25-7-2017

Revised date: 5-12-2017

Accepted date: 9-12-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of high pressure homogenization on the structure and the interfacial and emulsifying properties of β -lactoglobulin
