Development of a replicon cell line-based high throughput antiviral assay for screening inhibitors of Zika virus

Jia-Qi Li, Cheng-Lin Deng, Dayong Gu, Xiao Li, Lei Shi, Jian'an He, Qiu-Yan Zhang, Bo Zhang, Han-Qing Ye

PII: S0166-3542(17)30557-0

DOI: [10.1016/j.antiviral.2017.12.017](https://doi.org/10.1016/j.antiviral.2017.12.017)

Reference: AVR 4219

To appear in: *Antiviral Research*

Received Date: 15 August 2017

Revised Date: 7 November 2017

Accepted Date: 22 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Development of a replicon cell line-based high throughput antiviral assay for
screening inhibitors of Zika virus**
