

## Accepted Manuscript

Structure-kinetic relationship studies of cannabinoid CB<sub>2</sub> receptor agonists reveal substituent-specific lipophilic effects on residence time

Marjolein Soethoudt, Mark W.H. Hoorens, Ward Doelman, Andrea Martella, Mario van der Stelt, Laura H. Heitman

PII: S0006-2952(18)30123-0  
DOI: <https://doi.org/10.1016/j.bcp.2018.03.018>  
Reference: BCP 13095

To appear in: *Biochemical Pharmacology*

Received Date: 9 January 2018

Accepted Date: 16 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Structure-kinetic relationship studies of cannabinoid CB<sub>2</sub> receptor agonists reveal substituent-specific lipophilic effects on residence time**
