

Accepted Manuscript

On the G protein-coupling selectivity of the native A_{2B} adenosine receptor

Zhan-Guo Gao, Asuka Inoue, Kenneth A. Jacobson

PII: S0006-2952(17)30706-2

DOI: <https://doi.org/10.1016/j.bcp.2017.12.003>

Reference: BCP 12970

To appear in: *Biochemical Pharmacology*

Received Date: 25 October 2017

Accepted Date: 5 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Special Issue: Challenging the Status Quo in Biomedical Research: A Tribute to Michael Williams

On the G protein-coupling selectivity of the native A_{2B} adenosine receptor
