

## Accepted Manuscript

*In vivo* and *in vitro* diclofenac 5-hydroxylation mediated primarily by cytochrome P450 3A enzymes in common marmoset livers genotyped for *P450 2C19* variants

Kazuyuki Nakanishi, Shotaro Uehara, Takashi Kusama, Takashi Inoue, Kanami Shimura, Yusuke Kamiya, Norie Murayama, Makiko Shimizu, Yasuhiro Uno, Erika Sasaki, Hiroshi Yamazaki

PII: S0006-2952(18)30145-X  
DOI: <https://doi.org/10.1016/j.bcp.2018.04.002>  
Reference: BCP 13111

To appear in: *Biochemical Pharmacology*

Received Date: 19 March 2018  
Accepted Date: 2 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Classification:** Pharmacokinetics and Drug Metabolism

***In vivo* and *in vitro* diclofenac 5-hydroxylation mediated primarily by cytochrome P450 3A enzymes in common marmoset livers genotyped for P450 2C19 variants**
