Nitric oxide donors for prostate and bladder cancers: Current state and challenges

Amedea B. Seabra, Nelson Durán

PII: S0014-2999(18)30126-2
DOI: <https://doi.org/10.1016/j.ejphar.2018.02.040>
Reference: EJP71693

To appear in: *European Journal of Pharmacology*

Received date: 4 December 2017
Revised date: 26 February 2018
Accepted date: 27 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
