Cardioprotective effect of cerium oxide nanoparticles in monocrotaline rat model of pulmonary hypertension: A possible implication of endothelin-1

Seham Zakaria Nassar, Passainte S. Hassaan, Doaa A. Abdelmonsif, Samar Nabil ElAchy

PII: S0024-3205(18)30159-0
DOI: doi:[10.1016/j.lfs.2018.03.045](https://doi.org/10.1016/j.lfs.2018.03.045)
Reference: LFS 15621
To appear in: *Life Sciences*
Received date: 4 November 2017
Revised date: 17 March 2018
Accepted date: 23 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Cardioprotective Effect of Cerium Oxide Nanoparticles in
Monocrotaline Rat Model of Pulmonary Hypertension: A Possible
Implication of Endothelin-1**
