Accepted Manuscript

Non-canonical function of Tat in regulating host microtubule dynamics: Implications for the pathogenesis of lentiviral infections

Min Liu, Xin Du, Jun Zhou

PII: S0163-7258(17)30223-1
DOI: doi:10.1016/j.pharmthera.2017.08.013
Reference: JPT 7123

To appear in: *Pharmacology and Therapeutics*

Please cite this article as: Liu, M., Du, X. & Zhou, J., Non-canonical function of Tat in regulating host microtubule dynamics: Implications for the pathogenesis of lentiviral infections, *Pharmacology and Therapeutics* (2017), doi:10.1016/j.pharmthera.2017.08.013

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
