Glyphosate induces growth of estrogen receptor alpha positive cholangiocarcinoma cells via non-genomic estrogen receptor/ERK1/2 signaling pathway

Narongrit Sritana, Tawit Suriyo, Jantamas Kanitwithayanun, Benjaporn Homkajorn Somgvasin, Apinya Thiantanawat, Jutamaad Satayavivad

PII: S0278-6915(18)30388-0

DOI: [10.1016/j.fct.2018.06.014](https://doi.org/10.1016/j.fct.2018.06.014)

Reference: FCT 9835

To appear in: *Food and Chemical Toxicology*

Received Date: 8 December 2017

Revised Date: 22 May 2018

Accepted Date: 7 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
