Lipin deactivation after acetaminophen overdose causes phosphatidic acid accumulation in liver and plasma in mice and humans and enhances liver regeneration

Andrew J. Lutkewitte, George G. Schweitzer, Stefanie Kennon-McGill, Melissa M. Clemens, Laura P. James, Hartmut Jaeschke, Brian N. Finck, Mitchell R. McGill

PII: S0278-6915(18)30163-7

DOI: [10.1016/j.fct.2018.03.014](https://doi.org/10.1016/j.fct.2018.03.014)

Reference: FCT 9650

To appear in: *Food and Chemical Toxicology*

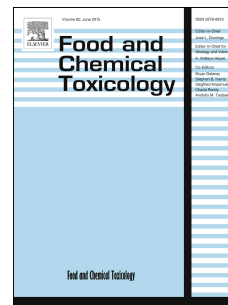

Received Date: 23 December 2017

Revised Date: 16 February 2018

Accepted Date: 10 March 2018
