Proteomic approaches to investigate age related vulnerability to lindane induced neurodegenerative effects in rats

Anubha Mudawal, Ankita Srivastava, Anshuman Singh, Jai Shankar, Sanjay Yadav, Manisha Mishra, Pradhyumna K. Singh, Vinay K. Khanna, Devendra Parmar

PII: S0278-6915(18)30198-4

DOI: [10.1016/j.fct.2018.03.049](https://doi.org/10.1016/j.fct.2018.03.049)

Reference: FCT 9685

To appear in: *Food and Chemical Toxicology*

Received Date: 22 January 2018

Revised Date: 7 March 2018

Accepted Date: 30 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
