T-2 toxin-induced toxicity in neuroblastoma-2a cells involves the generation of reactive oxygen, mitochondrial dysfunction and inhibition of Nrf2/HO-1 pathway

Xiya Zhang, Ying Wang, Tony Velkov, Shusheng Tang, Chongshan Dai

PII: S0278-6915(18)30075-9

DOI: [10.1016/j.fct.2018.02.010](https://doi.org/10.1016/j.fct.2018.02.010)

Reference: FCT 9581

To appear in: *Food and Chemical Toxicology*

Received Date: 28 August 2017

Revised Date: 17 January 2018

Accepted Date: 6 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

T-2 toxin-induced toxicity in neuroblastoma-2a cells involves the generation of reactive oxygen, mitochondrial dysfunction and inhibition of Nrf2/HO-1 pathway
