Approaches to assess IgE mediated allergy risks (sensitization and cross-reactivity) from new or modified dietary proteins

B. Remington, H.C.H. Broekman, W.M. Blom, A. Capt, R.W.R. Crevel, I. Dimitrov, C.K. Faeste, R. Fernandez-Canton, S. Giavi, G.F. Houben, K.C. Glenn, C.B. Madsen, A.K. Kruizinga, A. Constable

PII: S0278-6915(17)30767-6

DOI: [10.1016/j.fct.2017.12.025](https://doi.org/10.1016/j.fct.2017.12.025)

Reference: FCT 9470

To appear in: *Food and Chemical Toxicology*

Received Date: 29 January 2017

Revised Date: 3 November 2017

Accepted Date: 15 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
